CHELSEA VILLAGE COVID-19 MITIGATION MEASURES

While everyone is deeply affected by the mandatory lockdowns around the world, the Chelsea Village team has kept all of its staff employed and we have been working very closely with the WHO and Medical Support Solutions to ensure the teams working in country are doing so as safely as possible. The UN Health Team reviewed Chelsea Villages COVID-19 Preparedness and Prevention Measures in place with a 0 (zero) gap analysis.

We have re-worked our processes, SOPs and safety measures safely to as shown in this document. Our Reception team are reachable 7 days a week and happy to answer any questions. Chelsea Village's COVID-19 mitigation measures and procedures are outlined below:

ENTERING CHELSEA VILLAGE

We have installed a wash basin and hand sanitiser at the front gate for everyone entering the compound. The Chelsea Guards are equipped with medical PPE and a temperature gun to check any visitors and new residents entering the compound.

ACCOMMODATION

All of our staff live in the camp, thereby mitigating the chance of them getting the virus from outside the camp. Each staff member lives in their own self-contained rooms.

All the accommodations can be used for isolation or quarantine as they are self-contained. Each resident's

room has been equipped with sufficient hand soap and cleaning materials to ensure self-cleaning can be done until such time the UN and WHO deem it safe for workers from Mogadishu can return to work on the AAIA on a daily basis.

HYGIENE & SANITATION

Handwashing points have been made available at critical points in CV, each with WHO handwashing posters showing correct procedure.

We have also distributed hand sanitiser throughout the compound in critical points. Please use responsibly as prices have increased up to 10 times the regular amount in country. Approx. \$40 for 500ml.

DINING ROOM

In the dining room we have extended meal times to ensure no crowding and staggered the tables and chairs to follow 2-metre social distancing rules at all times.

We have put up a barrier between guests and hot plates in the kitchen to avoid any contamination of the food. Takeaway meals with disposable packages and utensils are also being utilised to deliver food to residents in self-quarantine and self-isolation. Hand sanitisers are also placed on the mandatory hand-wash table when entering the dining room.

COVID-19 AWARENESS

The WHO and MSS medical team have given COVID awareness training to all staff. No social gatherings, meetings or training are going ahead for the meantime.

HANDLING OF COVID-19 SUSPECTED CASES

In the event a resident or staff member falls ill, the CV and MSS teams have developed SOPs specifically for COVID, which the UN Medical and Environmental Team have reviewed and identified zero gaps.

Chelsea Village maintains a state-of-the-art medical facility run by the MSS team capable of responding to COVID-19 via a range of facilities:

- Rapid Testing
- Swab Testing
- Prevention, Treatment, Isolation, Recovery and Psychosocial support
- Medical grade decontamination of any rooms throughout the entire camp
- Laboratory
- Surgery
- ICU
- 6 x Respirators
- X-ray capability
- Blood and Plasma supplies
- 11 full time medical staff onsite 24/7 ranging from Doctors, Surgeons, Anaesthetist, Paramedics, Nurses, X-Ray Technician, 4x4 certified paramedic ambulance drivers.
- Medivac procedures are in place and have been updated for COVID.

Should a resident have to self-Isolate or quarantine, they will be located in their room and have cleaning materials, meals and laundry/linen delivered to their door in accordance with our SOPs that have been reviewed by WHO and MSS.

RETURNING RESIDENTS

For residents returning to Mogadishu we are following UN advice and implementing a mandatory 2-week quarantine in our comfortable NapCap Accommodation rooms. The Chelsea Village process for returning residents is shown here:
