@CHELSEAVILLAGE\_AAIA

CHELSEA VILLAGE OPERATES A STATE-OF-THE-ART ELECTRONIC WARNING SYSTEM LINKED TO A PA SYSTEM, ALLOWING FOR THE BROADCAST OF WARNING TONES AND VOICE.

ALARM TYPES, AND ACTIONS REQUIRED ON ACTIVATION

ALARM TYPE	SOUND	ACTION REQUIRED
ALERT	Continuous short, sharp, intermittent “baarrp, baarrp, baarrp” tone on a repetitive loop.	Move to the nearest intermediate overhead cover (indoors) and await further instruction. Will be followed by either “EVACUATE” or “ALL CLEAR” tones once relevant threat to Chelsea Village has been assessed.
EVACUATE	Traditional wailing Air Raid siren, which is a repetitive build-up of a “winding/wailing” tone.	Move immediately to <b>BUNKER</b> (Indicated on the compound plan included in the A to Z section).
ALL CLEAR	Continuous high pitched tone.	<b>Stand down</b> - Revert back to normal daily activities.
FIRE	Traditional Fire Bell (Mechanical).	Move to <b>FIRE ASSEMBLY POINT</b> (Indicated on the compound plan included in the A to Z section).

WEEKLY TESTING

For familiarisation purposes, the **ALERT**, **EVACUATE** and **ALL CLEAR** sirens will be tested/demonstrated with voice instructions **Every Thursday at 16:00** (2 minute sound broadcast).

# CHELSEA VILLAGE VISITORS FORM

Please contact Reception for this form. Please note, all visitors (anyone apart from permanent guests) to Chelsea Village need to be sponsored by a Chelsea Village resident in order to access Chelsea Village. Reception will process, sign and stamp the form which will then be handed over to security for access.

## VISITOR REQUEST FORM

Date of visit: 28 July 2020 Time of arrival: 15:15

### Sponsor/Host details:

## CHELSEA VILLAGE NEED TO KNOW NUMBERS AND EMAILS

The team is here to make your stay as comfortable and secure as possible.  
Please reach out to us on the details below.

• EMAIL:	bookings@thechelseavillage.com
• RECEPTION:	0612352491 / 0612117391
• HOUSEKEEPING:	0612506300 / 0619854251
• RESTAURANT:	0617462806 / 0612451292
• MAINTENANCE:	0612536324 / 0618871393
• IT:	0616437417
• SECURITY:	+252611542991
• GENERAL MANAGER:	0612491897 / +265993612537 (WhatsApp)

### CATERING & EVENTS BOOKING

Speak to our catering team about the options available for your next team building or meeting. Please contact Reception.

### RECEPTION

Our office is manned between 7am and 6pm daily apart from Fridays. We are also available on our WhatsApp numbers for further assistance – please save our numbers when you are booked in at Reception. Our office can help you with:

- Bookings
- Maintenance issues
- Conferences
- Visitors Form
- Housekeeping
- IT Support

# CHELSEA VILLAGE A TO Z

### AIR CONDITIONERS

Please set the ACs to your own comfortable temperature. We have a routine maintenance and servicing schedule but if you have any maintenance or housekeeping issues, please report it to Reception.

### BEACH

There are well known walks along the coastline here and these are within the AAIA. One well-known circuit is approximately 8 kms and takes around 1.5 hours to walk. Please be aware that if you are relaxing in rock pools that rogue waves do occasionally occur and these are strong enough to throw you out of the pool onto the **hard volcanic rock, potentially causing you serious injury. It is not advisable to swim as there are strong rip currents and sharks in the water.** AMISOM have set a curfew of 18:00 for everyone to leave the beach area.

### CAMP LAYOUT

### COG

Camp Operating Group (COG) is the company responsible for the build and ongoing management of Chelsea Village. If you are interested in finding out more about our remote-site solutions, please get in touch with Reception.

### CONFERENCE FACILITIES

We have a well-equipped conference room for hire.

- Seats 16 people comfortably, up to 40 people at absolute maximum capacity
- VTC available
- Tea/coffee/snacks/lunch buffet deals available

Please discuss rates and bookings at the front desk. For security reasons we need prior notice when non-residents plan to attend conferences. **All non-resident attendees must be sponsored by a Chelsea Village resident. Visitor forms need to be filled out and handed to Reception for processing.**

### DRINKS

Tea, coffee, cold water and cordial drinks are available in the dining room for residents, a great place to meet and start a conversation with fellow residents.

### FEEDBACK

There is an anonymous suggestion box in the dining room. Please feel free to give us your comments and suggestions. If you would like us to contact you, please leave your details. Any praise or positive feedback for our staff is also gratefully received and will be shared with them.

### FITNESS AND WELLBEING

We have two exercise areas for guests to choose from at Chelsea Village. The first is our original outdoor gym, which is tucked behind the bunker with a more Spartan/Venice Beach feel. Then there is our state of the art GymCap: a modern fitness facility which shares the same equipment as you will find at Manchester United and other premiership Football and Ruby clubs in the UK, spinning room with bikes, rowing machines and SkiErg, as well as a running gym with state of the art treadmills. We kindly ask all residents to wipe down machines and put all weights back neatly after use.

The Camp Operating Group (COG) specialise in building and managing accommodation camps in challenging environments and are the management team responsible for Chelsea Village.

## FOOD AND DIETARY REQUIREMENTS

As a resident you have access to three meals a day at our buffet. We offer three main choices at lunch and dinner, soup, salads, fruits, a selection of different breads and desserts. We have a variety of cereals, porridge and pancakes, cooked items, eggs to order, yoghurts, fruit and pastries for breakfast, subject to the menu plan.

We do all we can to consistently satisfy our residents' needs and we recognise the multi-national make up of our clients. **If you have any strict dietary requirements or allergies please make that known to Reception on your arrival** and we will do all that we can to fit in with your requirements. We also have an a la carte menu and we can custom-make items for an additional charge.

## PRIVATE CATERING & EVENTS

Our skilled catering team are on hand to take your special orders for private catering or events. 24 hours notice and subject to availability.

- Danish Pastries
- Eclairs
- Homemade Samosas
- Mexican (tacos, quesadillas, tortillas, churros)
- Avocado Wraps
- BLT Signature Sandwiches
- Pizza
- Fresh Fish (subject to availability)
- Lobster

### Culinary themes for a la carte or buffet

- Continental
- Indian
- African
- Mexican/Latino
- Italian
- Chinese

### STUJAVA COFFEE HOUSE

Beverages on offer:

- Tea
- Nescafe
- Coffee
- Nespresso
- Soft drinks
- Fresh Ginger Tea

## NUTRITION AND FOOD STANDARDS

We fly in most of our fresh fruit and vegetables weekly from Nairobi, Kenya. All our frozen and dried goods are imported from certified European wholesalers and stored to internationally recognised standards.

### TEAM BBQS OR BUFFETS

Why not book a private BBQ on our rooftop for your next team building or networking event? With capacity for 30 people, clients can choose between a BBQ, a la carte, or a buffet done to a specific theme (anything from Italian to Indian). Experienced in catering to many different nationalities, we look forward to fine-tuning your event with our catering manager.

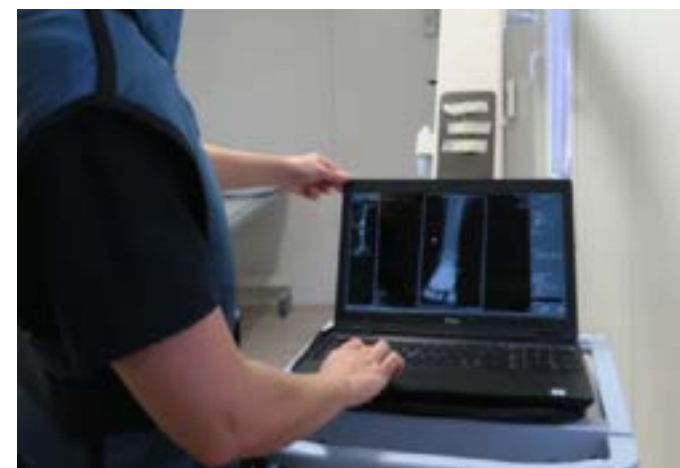

All food events to be pre-booked, minimum 24 hours in advance, subject to availability. To book, contact Reception.

## HOSPITAL - ON-SITE MEDICAL SUPPORT

Securing high quality medical care is one of the greatest challenges of working in hostile environments but our guests can rest assured. Chelsea Village is host to a world-class UK registered Role 2 medical facility, run by Medical Support Solutions (MSS), with 12 permanent medical staff onsite 24/7. The medical capabilities range from ICU, 2 x Operating Theatres, X-Ray, Dentist, Consultation Room, Laboratory, Ward, Pharmacy, blood and plasma bank – all to Department of State (DOS) and UK NHS standards/accreditation. MSS serves multiple embassies, including the US government, NGOs and agencies within the AAIA. The centre is available to MSS members as well as Chelsea Village guests at a discounted rate.

Visit <https://thechelseavillage.com/your-stay/medical-services/> for more details.

The Camp Operating Group (COG) specialise in building and managing accommodation camps in challenging environments and are the management team responsible for Chelsea Village.

The Camp Operating Group (COG) specialise in building and managing accommodation camps in challenging environments and are the management team responsible for Chelsea Village.

#### ID BADGES

Please carry your ID on you at all times.

#### IN-ROOM DINING

We do not provide room service and would prefer that residents do not take food from the dining room into their rooms. Doing so causes food hygiene problems and encourages pests and flies.

#### IT SOLUTIONS

We have an IT Technician on site who can support with basic tech issues with printers and laptops. As an additional service, he can also assist with installing Internet structures and office networks. For more details please contact Reception.

#### JOGGING AND WALKING AROUND THE CAMP

If you prefer to jog or walk around the camp then please be careful. Some people like to walk on the cemented ramparts by the walls rather than the road but this is unnecessarily putting themselves in danger of falling off and should be avoided.

#### KEYS

Please look after your key and keep it on you. The cleaners are trained, for security reasons, to lock your room after they have cleaned, so if you leave your key in your room you will be locked out. If you do lose your key or lock yourself out, come to Reception. Replacement keys are charged at \$20 each.

#### LAUNDRY

Laundry is picked up in the morning and returned, washed and ironed, in the afternoon of the same day. Place laundry bags on your door handle outside of your room in the morning. We are mindful of the environment and water scarcity in Somalia. If you can have clothes washed every second day it will greatly reduce our impact on the precious resources in country. **Whilst every effort is made to not damage or** lose your clothes, please note it is not recommended to wash and iron high value clothes. We are unable to dry clean suits and precious garments.

\* For any special laundry needs, please contact Reception and we will personally follow up.

\* There is no laundry service on Friday, and public holidays

#### MEAL TIME

Meal times in the dining room are as follows:

Breakfast: (Sun – Thurs: 06.00-08.00; Friday: until 11.00; Saturday: until 10.00)

Lunch: 12.00 – 14.00

Dinner: 18.00 – 20.00

We kindly ask meal times to be followed as this allows our team to clean the dining room thoroughly between meal times and get necessary rest between shifts.

#### MOVIE NIGHTS

For a movie under the stars, book our outdoor projector for free and enjoy a movie with popcorn and snacks in the cabana area.

#### NAPCAP

Your container room is called a NapCap and it has been built with quality, comfort and safety in mind. Designed by our team who have spent years working in remote locations, NapCaps are designed in Australia and certified to ISO standards. The units are easily transportable, able to withstand extreme temperatures and they can be deployed quickly. NapCap is high-end container accommodation adaptable to any field operation needs.

Our range includes: Premium NapCap (which guests enjoy at Chelsea Village), VIP NapCap and Villa NapCap.

Visit [www.enigma-alliance.com](http://www.enigma-alliance.com), [www.napcap-living.com](http://www.napcap-living.com) or contact Reception for more information.

#### PERSONAL BELONGINGS

We do not provide individual room safes so it is guests' sole responsibility to look after any valuables. Do not leave money and/or valuables in your clothing when sending it to the laundry. If you do so, our laundry personnel do return such items to Reception. Chelsea Village is NOT responsible for any items that residents claim are lost from their rooms.

#### POINTS OF CONTACT

We are here to help! Come see any of our staff in Reception who are all empowered to provide you with solutions. We work as a team and Reception will ensure the necessary department assists immediately with any issues or requests.

#### QUIET TIMES

Whilst the Chelsea Village rooms are well insulated and sound-proofed, please respect your neighbours and don't play loud music or have your TVs on unnecessarily high. Please do not congregate in groups around the rooms after 10pm during the week and 11pm on weekends. Talking loudly will disturb residents trying to sleep. For music and socialising, please use the welfare areas: the rooftop or cabana areas.

#### POTABLE WATER AT CHELSEA VILLAGE

We have installed a state-of-the-art Chelsea Water treatment plant on-site, which allows us to produce potable, drinkable water to World Health Organisation standards into the rooms and throughout Chelsea Village. This provides safe, readily available drinking water straight from the tap and enables us to reduce our use of plastic bottles and subsequent waste.

With the ever-growing need to protect our environment, our team decided to swap out 500ml plastic bottles for 20-litre reusable water containers. Often, people will open a 500ml plastic bottle, take a few sips then discard the bottle. Multiply this over one to ten years, one begins to see how much plastic is being thrown into landfill and drinking water wasted. If everyone were to switch to at least 80 % of their water being in reusable 20 litre bottles, imagine how much more landfill we could save and how much more water would be available for those in need of it.

CHELSEA  
W A T E R

#### AMOUNT OF PLASTIC BOTTLES & WATER SAVED THROUGH CHELSEA WATER

MONTHLY	YEARLY	5 YEARS	10 YEARS
64,000 500ml plastic bottles from landfill	768,000 500ml plastic bottles from landfill	3.8 million plastic bottles from landfill	7.7 million plastic bottles from landfill
40ft Shipping Container – half container a month equivalent	5.5 x 40ft Shipping Containers equivalent	28 x 40ft Shipping Containers equivalent	57 x 40ft Shipping Containers equivalent
30% of water in a bottle saved – 9,600 litres saved, 19,200 x 500ml bottles saved	30% of water in a bottle saved – 115,200 litres saved, or 230,000 x 500ml bottles	30% of water in a bottle saved – 570,000 litres saved, or 1.1 million x 500ml bottles	30% of water in a bottle saved – 1.2 million litres saved, or 2.4 million x 500ml bottles

#### PROVIDING WATER TO THE AAIA

Chelsea Water supports the water requirements of organisations operating within the AAIA in Mogadishu, offering delivery straight to their accommodation or office in 20l bottle refills. Not only making a positive contribution to the environment by reducing plastic waste but also dramatically minimising the cost of buying bottled water (up to 50% savings).

To find out more: [BOOKINGS@CHELSEAVILLAGE.COM](mailto:BOOKINGS@CHELSEAVILLAGE.COM) or +252 (0)612352491 for more information.

The Camp Operating Group (COG) specialise in building and managing accommodation camps in challenging environments and are the management team responsible for Chelsea Village.

The Camp Operating Group (COG) specialise in building and managing accommodation camps in challenging environments and are the management team responsible for Chelsea Village.

#### RAINS

During the rainy season in Somalia (usually June through to August) rains can be heavy and prolonged. During this time, stairs and floors can become more slippery than usual so please take extra precaution and always use the handrails fitted to the stairs.

#### RECEPTION

The Chelsea Village Reception office is the last office at the end of the dining facility building and is usually staffed from 7:00 to 18:00. Friday is a rest day but for any emergency please contact Reception.

#### HART NATIONWIDE SECURE MOVES TO TOWN

Hart is our sister security and risk management company, a fellow Chelsea Group company, that is resident at Chelsea Village. Hart Nationwide has been operational in Somalia since 2014, and is excellently placed to deliver security solutions to those enhancing the future of Somalia, providing static and mobile protection of personnel, resources and infrastructure. Feel free to introduce yourself to the Hart management team – you'll find their office next to Reception – and they will give you a brief on the security situation and the measures they have in place. If you're looking for a secure mobile move in Mogadishu, or further afield, this can be booked with Hart.

Contact: [somalia.operations@hartnationwide.com](mailto:somalia.operations@hartnationwide.com); 0612672542; [www.hartinternational.com](http://www.hartinternational.com)

#### SECURITY

Chelsea Village is protected by an (armed) guard force 24/7. Please be patient and understanding when they carry out full checks on vehicles entering Chelsea Village as this is done for your safety and protection. The guards do have the right to search your vehicle inside and any bags that may be in your vehicle. Random searches are there for everyone's safety.

#### SHEET CHANGES

Sheets are changed a minimum of twice a week. Please advise if you require housekeeping to assist with any new linen or towels by contacting Reception.

#### SHOWER TAPS

We have set the water heater thermostats at quite a high temperature for residents to always be able to enjoy a hot shower. Please familiarise yourself with the operation of the shower controls. Left is for water pressure and on/off. Right is for water temperature. Depressing the red button and turning the tap forwards (away from you) decreases the temperature and backwards (towards you) increases the temperature.

#### SMOKING

All rooms in Chelsea Village are considered 'non smoking' and are fitted with smoke detectors. This non-smoking policy is for your safety and also for the comfort of other guests who may use that room. If we notice you are smoking in your room and/or tampering with your smoke detector we will ask you to leave Chelsea Village and inform your organisation. Smoking outside is allowed but please dispose of your cigarette butts in a safe and hygienic manner and don't throw them on the ground.

#### SOAP, TOWELS AND TOILET ROLLS

Shower gel is provided on an "as needed" basis by the room cleaner. Spare toilet rolls are kept on top of the mirrored bathroom cabinet. Towels are changed "as needed" to lessen the environmental impact of washing daily. Fresh towels are always provided before a new resident moves in. If your room is missing any soap, clean towels, sheets, etc. Please contact Reception.

#### SOCIAL MEDIA

Please follow us on social media.

LinkedIn: Chelsea Village Mogadishu

The Chelsea Group

Instagram: @ChelseaVillageMIA

#### UPSTAIRS ACCOMMODATION

If your room is on the upper floor then please take care and always use the handrail when going up or down to your room

#### VISITOR FORMS

Due to security reasons we require all residents inviting any visitors into Chelsea Village to complete a Visitor Form (found in Reception) with the name of the visitor(s), contact information, organisation, reason for visit and acceptance of full responsibility for them on-site. Visitors need to leave our facility no later than 11pm. Reception will process the form and hand over to security to facilitate access

We have a Xerox machine and we can (for a small fee) help out with your copying and printing needs. Please ask at Reception.

#### YOUR HOME

Please feel at home and let us know in Reception if there is anything we can help you with. We will always try our best for our clients.

The Camp Operating Group (COG) specialise in building and managing accommodation camps in challenging environments and are the management team responsible for Chelsea Village.

## FURTHER SERVICES FROM THE CHELSEA VILLAGE & COG TEAM

### CONSTRUCTION

Chelsea Village is managed by Camp Operating Group (COG), who were responsible for the build and design of Chelsea Village in 2015 on this plot of land which had zero infrastructure. A team of remote-site specialists who plan, build and manage camp projects, we have worked on many projects across East Africa, ranging from the high-end NapCap container accommodation of Chelsea Village to tented camps for mining clients. We oversee all areas of the camp delivery from power to water, catering to fitness facilities.

Our team can assist clients with their building needs, including reverse engineering, whether that's carpentry work or a three-storey office block. Our construction services include:

- 20- or 40- foot container conversion to offices
- Concrete office complexes to UNDSS MOSS standards
- Light gauge steel builds
- Flat pack accommodation
- Safe rooms/bunkers with SafeCap
- Construction projects within the AAIA
- Construction projects within the city
- Block paving, interlock paving

We offer turnkey solutions. For example, we can design and build offices, set-up all communications and internet, install air conditioning, work on the best layout and deliver and set-up all furnishings.

Our team is a winning combination of local and international builders, and we have an impressive track record of successful builds both inside and outside of the AAIA zone.

COG was responsible for the regional office block for WHO (a concrete structure finished with interior fittings), the new office build for The World Bank (which includes, above MOSS standards, UN standard Overhead and Side blast protection) as well as the build and setup of Medical Support Solutions surgical unit.

Containerised housing for remote living and working, NapCap offers comfort, quality and peace of mind. Designed by a team who have spent years working in remote locations, NapCap is certified to ISO standards.

Comfortable and secure, NapCap's range includes:

- **Executive Napcap:** 1 x accommodation unit with en-suite bathroom, 20-foot container; 2 x accommodation units with en-suite bathrooms, 40-foot container.
- **VIP Suite:** a 40-foot container with single luxury living and bathroom area, and separate working area and lounge.
- **NapCap Villa:** A containerised home the Villa comes in a choice of 2 and 3 bedrooms, in 2 x 40-foot or 3 x 40-foot shipping container modules.

Unlike other container housing on the market, NapCaps are built new; the security design of the containers is in line with UNDSS MOSS standards. Portable (by air, sea and rail), NapCaps can be stacked, added on to, moved to a new location and easily refitted for a new purpose.

The COG team are also skilled at re-purposing containers depending on the client's requirements.

To reduce in-country build time of the traditional Safe Room/Bunker construction in a conflict setting, COG developed a bespoke 10mm thick steel-enclosed (walls, floor & roof) Safe Room/Bunker, known as SafeCap which is supplied complete as a plug and play, drop-in unit.

Manufactured in Europe, it includes AC, plumbing lines, electrical lines, two toilets, wash basin, lights, electrical sockets, bench seating and a secondary roof structure for further overhead protection (UN Standard). Choose between 20-foot (12 person pax) or 40-foot (32 pax).

GymCap is a container gym built to ISO standards that is easily transportable and quick to assemble, providing high-quality physical training solutions that are ideal for challenging environments. The first GymCap, a double-container and rig gym unit, was rolled out in Chelsea Village, Mogadishu, in 2017.

GymCap includes cardio equipment with the latest low-maintenance, self-powered treadmill, rower, air bike and cross trainers pre-installed, as well as a weight-pulley system. A broad spectrum of small equipment is included that can be adjusted to suit customer requirements. Thanks to the modular design, the gym can be easily dismantled and moved to another location as required.

Chelsea Village guests enjoy WHO-standard drinking water straight from the tap thanks to Chelsea Water's mobile plug-and-play Reverse Osmosis (RO) systems. The systems are pre-engineered and modular in design, allowing for simple connection and maintenance which is ideal for use in remote areas. This technology can transform water obtained from sub-surface and deep-well aquifers with high salinity levels or even seawater into clean and safe drinking water. Chelsea Water is also a leading water provider around the AAIA with purified, 20l refills of bottled water transported to clients weekly.

#### CHELSEA WATER SOLUTIONS INCLUDE:

-  The Chelsea Mini: a range of portable, briefcase-sized units that provide water purification in any location. Solar power options. Ideal for emergency situations. (1000 litres per day)
-  Trailered plant: self-powered trailer, or vehicle-mounted plant; part of our rapidly deployable mobile water solutions. (72000 litres per day)
-  Fixed-in-place containerised solutions (from 28k to 120k litres per day)
-  Fixed in place large-scale plants (20-million litres per day)
-  Atmospheric water generators (no water required).

**SERVICES INCLUDE:** brine treatment & zero waste solutions; water purification; desalination; water reclamation & reuse; effluent treatment; solar-powered water treatment options.

Chelsea Water's range of solutions are perfectly suited for use in mobile camps, oil and gas infrastructures, remote mining operations, remote communities, and life support infrastructure with limited access to safe clean water. Chelsea Water also offers the option of solar-powered and hybrid units.

For more information on any of these supporting services please contact [hello@enigma-alliance.com](mailto:hello@enigma-alliance.com) or reach out to Reception.

[www.enigma-alliance.com](http://www.enigma-alliance.com) | [www.thechelseavillage.com](http://www.thechelseavillage.com) | [www.chelseagroupworldwide.com](http://www.chelseagroupworldwide.com)

## Meet the Chelsea Group

In operation since 1999, Chelsea Group is a family of independent companies with a focus on delivering services in challenging environments, globally.

CTG is the industry-leading HR and Project Management provider to the humanitarian and development community in challenging locations. From food distribution in Afghanistan and public sector reform in Somalia, to demining in Iraq and displacement tracking in Libya, CTG's capabilities are as diverse as the issues on our world's agenda. [www.ctg.org](http://www.ctg.org)

Hart is proud to be known as a client-focused company delivering quality security services to the private, public and NGO sectors with exceptional results. In Somalia, Hart Nationwide has been delivering trusted risk management and security services since 2014 and is the in-house security company for Chelsea Village. [www.hartinternational.com](http://www.hartinternational.com)

One of the leading suppliers of Aviation Security Services in the world. Established in 1993, Longport currently operate in 14 countries and 25 international airports with more than 1500 employees, serving over 20 major airlines. Longport offers ICAO compliant services and programmes to global clients.

Enigma Alliance specialises in creating secure and comfortable camps with innovative, modular products that our guests enjoy at Chelsea Village. Offering ongoing service support Enigma Alliance delivers entire camp setup or select products. [www.enigma-alliance.com](http://www.enigma-alliance.com)

A provider of high-quality, turn-key portable structures for field operations, ranging from comfortable accommodation to medical rooms, check points and temporary embassies. The units have been designed and trialled by personnel who've spent more than 50 years in the field in conflict or natural disaster zones. [www.napcap-living.com](http://www.napcap-living.com)

A modular gym solution suitable for any terrain, designed by fitness experts. A double container and rig gym, each unit is built to ISO standards and is custom-designed for clients.

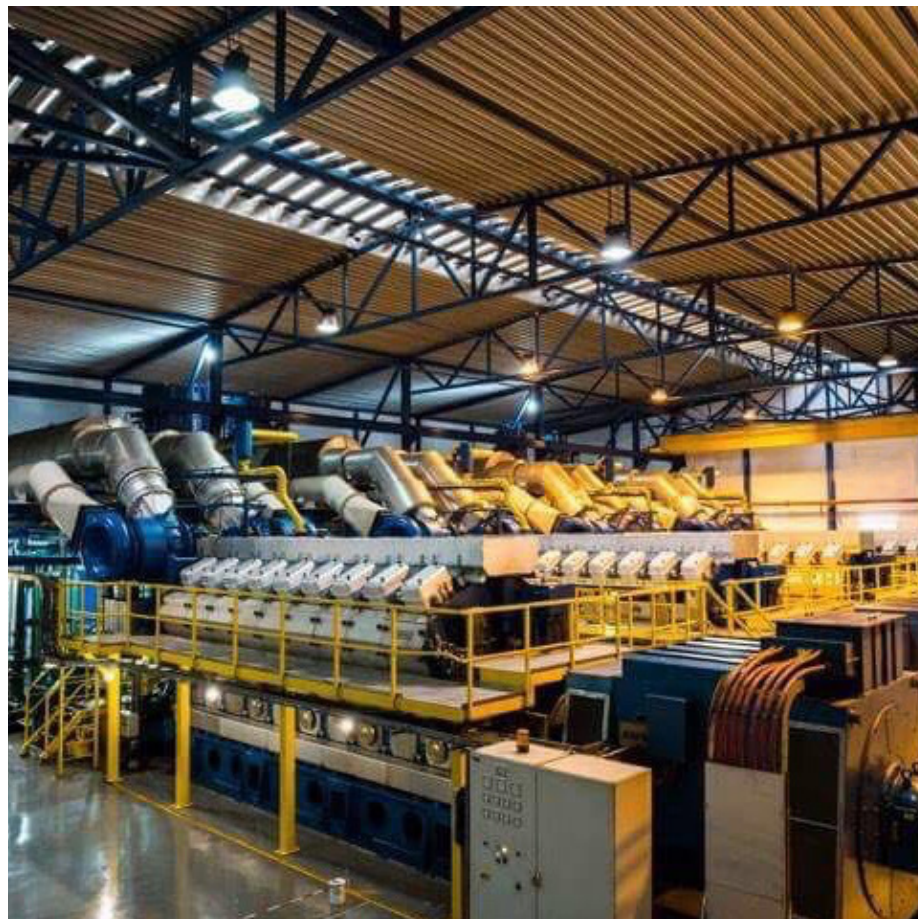

The management company behind Chelsea Village, the Camp Operating Group are skilled in building and managing camps in challenging environments. They create fully operational, secure and comfortable camps to the highest of possible standards. Adept at problem-solving, our teams also have vast experience in providing the necessary life support from catering to communications.

Chelsea Water, a partnership between Nuwater and the Chelsea Group, provides clients with flexible water systems that can be quickly deployed in any environment. Their innovative technology makes them the ideal solution for water treatment and liquid waste management in rural and conflict zones, with particular focus on Africa. They offer products ranging from 20 million L/day water purification plants to mobile solutions providing smaller outputs for temporary and/or emergency use-cases, such as the Chelsea Mini, a water purification system the size of a briefcase. Chelsea Water also offers environmentally friendly waste and reject water treatment solutions for an all-encompassing zero-waste solution.

Chelsea Énergie is an Independent Power Producer and O&M company specialising in optimising power plant operations in Madagascar. With capability to support operations in East Africa and Francophone African countries, Chelsea Énergie provide a range of services, including regular maintenance checks, emergency restoration, and high voltage systems management. The company is currently increasing the power generation of an existing power plant in Madagascar from 10MW to 40MW and overhauling 8 client engines to provide 114MW to the grid. Additionally, Chelsea Énergie is supporting the installation of 50MW of solar power and other renewable sources in Madagascar.

The Leadership Trust delivers high impact, experiential leadership development, which changes behaviour and transforms individuals, teams and organisations for clients across the globe. With foundations in the Special Forces, the Trust's approach has been honed over four decades with expert input from behavioural psychologists and specialists in leadership development. They offer tailored programmes, open courses as well as coaching. [www.leadershiptrust.co](http://www.leadershiptrust.co)

Security Exchange is a crisis and security management company, providing specialist services for kidnap and ransom, product recall, extortion, terrorism, cybercrime, travel management, business continuity and disaster recovery. They have a trusted network of medical and security providers who offer comprehensive and reliable support to clients. [www.securityexchange24.com](http://www.securityexchange24.com)

Chelsea Group Mozambique (CGM), is a majority female-owned Mozambican security company. Operations are overseen by a globally experienced international management team that leans on the expertise and capacity of the Group to ensure the provision of high quality security services.

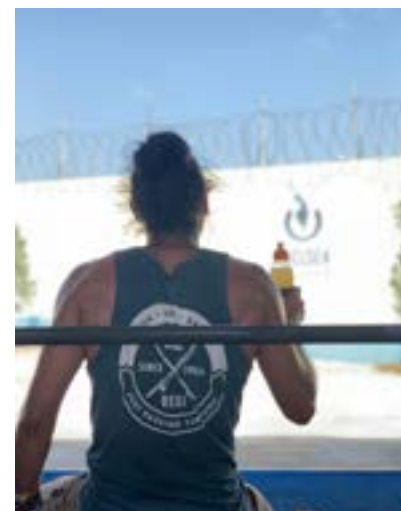

## MAKING AN IMPACT

Chelsea Group believes in shared value: here are some of the projects that we have been involved in, and organisations that we support

### RUNNING AROUND THE WORLD

There's a distinct link between challenging environments and inspirational stories, so when the team at Chelsea Village heard that British endurance athlete Nick Butter would be running a marathon in every country on the planet to raise money for a good cause, we wanted to support however we could.

Nick committed to running a marathon in 196 countries to raise £250 000 towards prostate cancer awareness. He covered three countries a week for 96 weeks and set a world record. The Chelsea Village team not only hosted Nick and donated \$3000 to the cause, but ran alongside him in the safe zone of Mogadishu.

The summit was made possible by CTG's dedicated Somalia team, the Chelsea Village team as well as security provider Hart.

### DELIVERING SOCIAL IMPACT IN COUNTRIES AFFECTED BY CONFLICT

Committed to Good (CTG) believes strongly in the role the private sector can play in contributing to global development. As a result, CTG has integrated its commitment to delivering a positive social impact in fragile and conflict-affected countries into the core of its business operations. This is driven by their Shared Value approach, a purpose-based business strategy that aligns their long-term commercial interests with the interests of its local communities.

CTG's Shared Value approach is rooted in a commitment to Human Rights and the Sustainable Development Goals (SDGs), specifically focusing on SDG 5 Gender Equality, SDG 8 Decent Work and Economic Growth and SDG 16 Peace, Justice and Strong Institutions.

#### GENDER EQUALITY AND WOMEN'S EMPOWERMENT

A central component is taking action to strengthen women's access to decent work in the humanitarian and development sectors. This commitment is brought to life by Female First, CTG's leading gender parity recruitment programme which has seen CTG increase the female representation across its workforce by over 25% in 5 years. Female First is also upheld by their Women in Aid Internship Programme, and Job-Readiness workshops which aim to assist young women with breaking into the formal labour market. To date, CTG has trained over 150 women across 3 countries.

**FEMALEFIRST**

#### PROMOTING LOCAL ECONOMIC DEVELOPMENT

CTG recognises the role that dignified and secure jobs can play in promoting equitable sustainable development, especially in fragile and conflict-affected countries. CTG has sourced and placed thousands of local staff in humanitarian and development roles since its establishment in Afghanistan in 2006. Today, 97% of CTG's staff are local nationals and CTG takes pride in being a local employer of choice. By improving people's access to decent work opportunities in countries of conflict, CTG's goal is to bring people together for a shared purpose and prosperous future.

CTG welcomes the opportunity to further discuss its Shared Value initiatives being delivered in fragile and conflict-affected countries. To find out more, please reach out to [mia@ctg.org](mailto:mia@ctg.org) or visit CTG's website at [www.ctg.org](http://www.ctg.org).

#### CHEKA SANA

Enigma Alliance's CEO Stuart Page is proud to be on the board of Cheka Sana Foundation.

The foundation works to reduce the number of children living on the street by building a better relationship between street children, their families, relatives and their community. Key activities in this regard are: outreach, a girl's centre, football and 'Street Skillz,' a programme for young mothers and their babies, reintegration work and advocacy. Together, these form an integrated and holistic approach to engage and support young street children.

#### 65 DEGREES NORTH

Through a not-for-profit organisation called 65 Degrees North, comprising a small team of working professionals who volunteer their time to rehabilitate injured and wounded ex-servicemen and women through inspiring adventure-events, Chelsea Group and Enigma Alliance are committed to assisting physically and mentally disabled veterans to live a self-sufficient and full life.

By changing the perception of mental and physical disability through the 'Spirit of Adventure' it aims to inspire and motivate others to overcome, achieve and succeed. Inspiring adventures include conquering Kilimanjaro and reaching the summit of Everest.

#### MAiSI

MAiSI is the world's first Sports Ethics and Integrity Masters Degree. Chelsea Group and Enigma Alliance consider themselves part of an empowering movement across the globe that believes that access to sports education, without borders, breaks down barriers and bridges socio-economic differences on equal-community playing fields.

As a response to the global crisis in sports integrity, honourary research fellow and Enigma Alliance CEO Stuart Page proudly supported the creation and development of the first Masters course in sports ethics and integrity and sits on the international advisory board. The two-year degree, a world-first innovation for sports administration and governance, aims to transform moral thinking in sport by covering, amongst other issues, ethics, corruption, match fixing, doping and illegal betting.

We also provide funding and support for scholarships for students, with a focus on students in Africa.

#### BELA VISTA

The Bela Vista Project is a non-profit organisation founded by Pandora Delevingne, aimed at improving the lives of communities in the impoverished Bela Vista region of Southern Mozambique. The organisation provides support in various areas including food, water, clothing, medical supplies, housing, education, and community development. Their focus on education is evident through their efforts to build a pre-primary and primary school for the community. They also provide support for medical assistance, employment opportunities, contraception, and sustainable housing. Chelsea Group Mozambique is working with the Bela Vista Project to continue to support and create a significant impact on the lives of vulnerable communities in Mozambique.
